

CROWDFENSE

VULNERABILITY RESEARCH HUB

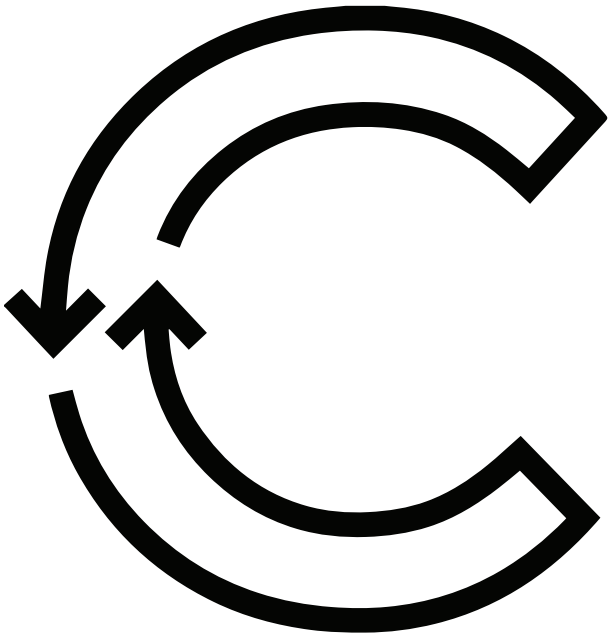

#whoami

Andrea Zapparoli Manzoni

- Director of Crowdfense
- Most recently, Head of Cyber Security for KPMG
- Former military officer
- Member of the National Security Observatory (Italy)
- Board Member of Italian Cyber Security Association
- Author of many cyber-security guidelines and best practices:
 - Italy's "National Cybersecurity Framework"
 - Italy's "Cyber Strategy"
 - ENISA's "Cybersecurity and Resilience for Smart Hospitals"
 - etc

Crowdfense

- Dubai-based company
- Established in 2017, launched in April 2018
- Vulnerability research hub for 0day capabilities
- **Mission:**
to modernize the buying and selling of exploits by supporting researchers and creating a more transparent and efficient market.
- We support law enforcement and intel agencies
- We do not support the development of cyber weapons and the disruption of target systems.

Crowdfense Bug Bounty

Launched a \$10 Million (USD) bug bounty for remote access 0 day capabilities in April 2018

Continuing to look for talented researchers and specific capabilities.

Paid out over \$5M in the past three months to acquire new capabilities.

The VRP is committed to becoming a standardized, user friendly platform for vulnerability researchers and brokers who want to speed up and simplify the process for evaluating, pricing and trading 0day capabilities within a highly confidential, legal and financially lucrative platform.

This
process-
centric
approach
ensures:

A faster time-
to-market for
sellers.

Higher quality
products for
customers.

To join the VRP, to learn more
about Crowdfense, or to
discuss ways to partner speak
to us after this presentation or
visit the website:
